

Professional Training on Basic Environmental and Social Framework (ESF)

*This initiative is proudly supported by
BD ES Learning Center*

The training is divided into five days incorporating lectures, case studies, quizzes, and interactive sessions. Participants will be equipped with practical skills to navigate regulatory frameworks and ensure responsible project implementation.

November 22-26, 2025

9:00 AM - 5:00 PM

5th Floor, Seminar Room, NAME
Mechanical Engineering Building,
BUET, Dhaka-1000

Expected Outcomes

- To gain a clear understanding of the ESF framework, Borrowers' responsibilities, and the objectives and requirements of the ten Environmental and Social Standards.
- To identify and mitigate environmental and social risks, contributing to economically viable and socially responsible projects.
- To develop skills to ensure compliance with legal, regulatory, and ethical standards and the use of relevant assessment and management tools.
- To draw practical insights from case studies, field experiences, and best practices to inform an effective project cycle.

Resource Persons

The training sessions will be conducted by distinguished professors from BUET, professionals from the World Bank, Department of Environment (DOE) and DIFE

Course Outline

- Day 1 : ESF Fundamentals and Core Standards
- Day 2: Advanced Standards and Stakeholder Engagement
- Day 3: Integrating Gender, GBV/SEA/SH, National Environmental Legislation, and Risk Screening into Project Design
- Day 4: Field Visit: Practical Exposure to ESF Implementation
- Day 5: Preparation and Implementation of ESMP and ESCP with Case Studies
